SKILLS

- Good knowledge of modelling software CATIA and MATLAB Simulink Software
- Exposure to engineering development
- Good command on Operating systems such as WINDOWS
- Good command on MS OFFICE
- Leadership
- Time Management

EDUCATION

- **All India Shri Shivaji Memorial Society's College of Engineering, Pune (Aug 2015 to Dec 2017)**

Completed Master of Engineering in Electrical Engineering with specialization in Power Electronics and Drives and have scored 7.77/10 CGPA

- **Government College of Engineering, Jalgaon (July 2011 to July 2015)**

Studied Bachelor of Engineering in Electrical Engineering with aggregate percentage of 65.33%

- **Mooljee Jaitha College, Jalgaon (July 2009 to July 2011)**

Completed intermediate school (HSC) having percentile score of 78.83%

- **Bharat Vidyalaya Nhavi (June 2008 to June 2009)**

Completed school education (SSC) having percentile score of 84.92%

HOBBIES

- To play cricket, Volleyball
- Travelling and explore new things and places
- Volunteering and participating in various community activities

PROFESSIONAL SUMMARY

- A versatile professional with over 01+ years of experience in project management and product development. Also having 01 year of experience in design engineering
- Develops timelines, organizes samplings and sets priorities
- Communicate with key stakeholders in various areas, including Marketing, Regulatory, Safety, Quality, Operations
- Works on a cross-functional project team through all phases of the product development process
- Excellent capability to explore, learn and understand newer business domains and technology
- Good communication, interpersonal, learning and organizing skills matched with the ability to manage stress, time and work effectively
- Flexibility to change with new technology

EXPERIENCE

- **Development Coordinator Engineer (Sep 2018 to Till Date)**
Dhoot Transmission Pvt. Ltd. Pune

- Co-ordination with R&D and CD of customer for New Product Development
- Planning from designing till the readiness of the harness
- Responsible for the deadlines of total development of harnesses till customer's actual production
- Internal co-ordination with PPC, Purchase and Store, costing for the development activities

- **Production Engineer (April 2018 to August 2018)**
Dhoot Transmission Pvt. Ltd. Pune

- Worked with Production department for the production of wiring harnesses
- Worked with different departments like ACC, LPC, USW etc under the production department

- **Design Engineer (Feb 2016 to March 2017)**

PVG Technology – Management and Engineering Services

- Worked on CATIA V5 modelling software
- Used different modules like Part Design, Part Assembly, Drafting etc

RESEARCH PAPERS PUBLISHED

Title: PID Controller based DC Motor Speed Control

Publication: September 17 Volume 5 Issue 9, International Journal on Recent and Innovation Trends in Computing and Communication (IJRITCC), ISSN 2321-8169, PP: 35 – 38
