- **Diploma in Mechanical Engineering**
Government Polytechnic College, Immadihalli, Karnataka
First Class, 2019
- **SSLC**
Saint Thomas High School
First Class, 2016

TECHNICAL SKILLS

- Solid Edge(moderate)
- FEM Analysis(basic)
- SAP MM(Enduser)
- Microsoft Office

PROJECTS

- **Project 1 (Major Project)**
Title: Fabrication of vapour compression refrigeration test rig.
Description: Essentially, a vapour-compression refrigeration system is a system that uses liquid refrigerant in a closed system that circulates the refrigerant through four stages in which it is alternately compressed and expanded, changing it from liquid to vapour.
Tools used: Hermetically sealed compressor, condenser, evaporator, solenoid valve

● Project 2(Major Project)

Title: Design and Development of 3D Printer extruder heat sink with conformal cooling channel.

Description:With the study and evaluation of the model we can implement conformal cooling channels in the 3D printing nozzle which was first was present only at Direct Energy deposition. At present we can 3D print material.

Tools used: Stainless steel material,Tapping tool,Direct Energy deposition.

STRENGTHS

- **Analytical Thinking:** My engineering background has honed my analytical skills, enabling me to assess various options, evaluate suppliers, and make informed decisions to optimize purchasing strategies
- **Detail-Oriented Approach:** With precision ingrained from my engineering education, I excel at scrutinizing purchase orders, contracts, and invoices to ensure accuracy and compliance.
- **Data-Driven Decision Making:** Proficiency in Excel allows me to manipulate and analyze data, facilitating evidence-based decisions that contribute to effective procurement planning
- **Cross-Functional Collaboration:** My experience in teamwork and effective communication enables me to liaise between engineering teams and suppliers, ensuring seamless communication and coordination.
- **Vendor Relationship Building:** Leveraging my interpersonal skills, I establish strong connections with suppliers, fostering long-term partnerships that enhance procurement efficiency and reliability.
- **Process Optimization:** My understanding of process improvement methodologies helps me identify opportunities to streamline procurement workflows, reducing costs and enhancing overall efficiency.
- **Effective Communication:** With a communication-focused skill set, I can articulate requirements clearly, negotiate effectively, and maintain transparent communication with suppliers and internal teams.
- **Mail Monitoring and Coordination:** I efficiently manage emails and communication platforms, ensuring prompt responses and maintaining a well-coordinated flow of information between stakeholders.
